

# SPSS Statistics 23.0 Fix Pack 2 Fix List

## Release notes

### Abstract

Release note(s) and a comprehensive list of defect corrections for the SPSS Statistics 23.0 Fix Pack 2. Details of the fixes are listed below under the tab for the respective Fix Pack. If you have questions about a particular defect, please contact Customer Support.

Special Note for Statistics 23.0: 23.0.0.1 was an internal-only build and there was no publicly-available Fix Pack associated with it -- in other words, there is no 23.0 Fix Pack 1. All fixes that would have been contained in 23.0 Fix Pack 1 are included in 23.0 Fix Pack 2.

Note: each successive Fix Pack is comprehensive and contains the material from the earlier Fix Packs for that Release, as well as all Interim Fixes made available since the previous Fix Pack or full Release. In other words, when multiple Fix Packs are available, you would not need to apply Fix Pack 1 before applying Fix Pack 2.

Issues corrected since SPSS Statistics 23.0 Release
